|             | Lead Time is 2-3 Weeks, once Pulse has Customer Supplied Materials in house.<br><br>Please Note Assumptions:<br>1. An updated print including the .002" ± .002 slot width and ± 3° angular tolerance will be required before fabrication of parts.<br>2. Slot Width and Angular Tolerance are best effort.<br>3. Off-axis features are best effort.<br>4. Possible uncontrolled removal of NiTi material can significantly degrade the edge quality.<br>5. Pulse cannot prove the critical angular dimensions of the cut through the tube without destroying the parts.<br>6. Pulse is unable to measure dimensions stated on page 2 of prints.<br><br>Thank you for the opportunity to quote!<br>Note: Quoted lead times are business days (M-F) and represent the estimated shipping day.<br>Customer Supplied Material may be considered SHIP TO STOCK for Pulse Systems production status, all products are built under the full controls and traceability of our ISO 13485-certified Quality System, with the following exceptions. We rely on our customers to communicate with us regarding specific critical attributes of their product requiring inspection. In the absence of such information, we will use our best judgment to select inspection points and sampling plans. Also, certain expedited Prototype orders (designated not for human use) are given minimal inspection by specific agreement with that Customer.<br>Thank you for the opportunity to present this quotation.<br>All prices quoted are FOB Origin.<br>Prices apply for 30 days unless otherwise noted. | Total:                             | \$708.00 |             |
