

Dimension from right most edge of tube to the closest point on the outside cut surface of the slot

Axis of Symmetry

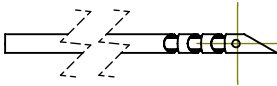

"Slot" cut 'off-axis'

Notes:

A) This profile is symmetric and therefore only 1/2 of the model is shown. The final profile will be cut from a full tube.

B) Units are in inches

Notes:
 This design is identical to
 page 1: 135deg CCM
 Wrist Left but this one has
 3 cuts not 5.
