

Notes:

A) This shows the full design.
Please refer to page 3 for the
base cell design.

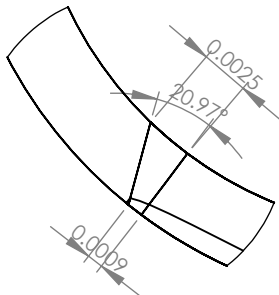

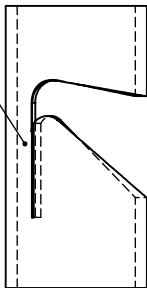

B) This design is exactly the same as
Page 1 except the tapered edge is
cut off the opposite side of the tip of the tube.

Dimension from right most edge of tube to the closest point on the outside cut surface of the slot

Axis of Symmetry

"Slot" cut 'off-axis'

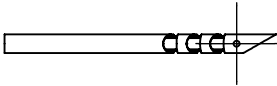

DETAIL A
SCALE 100 : 1

Notes:

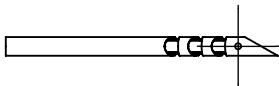

A) This profile is symmetric and therefore only 1/2 of the model is shown. The final profile will be cut from a full tube.

B) Units are in inches

Notes:
This design is identical to
page 2: 135deg CCM
Wrist Right but this one has
3 cuts not 5.

Notes:
This design is identical to
page 1: 135deg CCM
Wrist Left but this one has
3 cuts not 5.
